

Munich Graduate School of Economics - LMU Munich
October 2020

Guest Course: NLP for Economists

Assignment 2

Submission Deadline: preferably a day before we meet on this topic. Worst case: 31st October 2020

Description: Take a text PDF file (a research article) or a scanned pdf (may be a very old research article). Try to apply some of the techniques we discussed in this topic (e.g., extracting plain text, pre-processing, representing the text through some method - bow/bon/tfidf/word2vec/bert - anything you want. Take a look at the extracted text too. Submit your observations from this exercise (e.g., what is the use of these things for your research? what are some problems? what are the limitations of these tools? etc) as a 2 page pdf document. Follow the same naming conventions as before, and upload to Assignment2 folder.
